

Airline Ticket Booking & Check-in Workflow Testing - Evidence

Employee: Kaleemuddin Mohammed

Evidence source: local assignment simulation. No live airline system was tested.

Test Case	Defect	Observed Result
ATB-004	ATB-DEF-001	Past travel date was accepted instead of rejected.
ATB-010	ATB-DEF-002	Rapid seat change temporarily held two seats.
ATB-020	ATB-DEF-003	Retry after simulated timeout generated a second booking reference.

These evidence notes correspond directly to the failed test cases in Test_Cases.csv.
